To play this game, you have to first get ten beads and three or more players. If you want to be the first seeker, count to twenty, but if you want to hide first then find a great spot. Whoever gets found last gets a bead. The person who has the most beads at the end of ten rounds wins.

Good luck and have fun!

  2. Continue drawing the shape around all edges of the page.
  3. Make a similar pattern in the middle of the page.

Ta-da! There it is, a camo pattern!

### *Jump Rope Tricks*

**Supplies: Jump Rope, DIY Trivia Game**

**4 or more players\***

- 1. Grab a jump rope.**
- 2. Write trivia questions with answers.**
- 3. Two of the players will start wiggling the jump rope from side it side.**
- 4. The first player will try to answer a question from the trivia game. If right, jump over the rope as it wiggles, but try not to let it touch you. If incorrect, try to answer the next question correctly.**
- 5. If the jump rope does hit you, it is your turn to wiggle the rope. If you miss two trivia questions in a row, it is your turn to wiggle the rope.**

**\*If in a wheelchair, you can roll over the rope. Then, the people that would wiggle the rope will swing the rope over you. Next, roll over the rope again. Repeat this 2-3 times and then take a turn wiggling the rope. Have fun!**

# GAME:

## *Uno™ Meets Yahtzee™*

Supplies: Uno™ Card Game and Yahtzee™ Game (or Five Dice), Writing Utensil, Paper

2 or more players

To play this game, start by rolling the dice and flipping a card. Add up the rolled dice. Match your roll and flip to one of the following scenarios:

- If you have a wild card on top, you have to subtract someone else's points. But, if you have a yellow, green, or red card, you have to subtract that many points from your score.
- If you have a blue card, you get to add 4 to your or someone else's score.
- If you have a reverse or +2 card, you either reverse the order you are going in or add 2 points to your score.

See who wins, and have fun!

# CRAFT:

## *How to Make a Fairy House*

**Supplies: Branches or Short Sticks, Grass, Rocks, Flowers, Decorations, Cardboard, Small Doll or Fairy Toys**

**First, you need to put your piece of cardboard down on a flat surface. Second, position the sticks to create a teepee. Third, place grass all over the cardboard. Fourth, create a rock path and decorate the grass with flowers. Last, when you are done decorating, place dolls or fairies onto the design; the dolls or fairies may be glued into place, if desired.**

**Enjoy making your fairy house!**

# OUTDOOR ACTIVITY:

## *Chalk Drawing*

Supplies: Chalk, Sidewalk (or Other Outdoor Flat Surface Safe for Chalking)

First, you will need to find somewhere to draw with your chalk. Next, you will need to think of an idea. Then, use that idea to pick out your colors.

As soon as you have your chalk colors, you can start coloring and drawing your picture. I like to sketch it out first before beginning. Last, when you are done drawing and coloring your picture, you can sign your work of art.

Have fun being creative!
